DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 57-77 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 57, lines 9-10, recite "to define a first unchanged region of said first current blocking layer surrounded by a first changed region of said first current blocking layer", the "surrounded by" limitation" fails to find support in the original application. Claim 59, lines 5-6, recite "to define a second unchanged region of said second current blocking layer surrounded by a second changed region of said second current blocking layer", the "surrounded by" limitation" fails to find support in the original application. Claim 69, lines 12-13, recite "to define a first nonoxidized region of said first current blocking layer surrounded by a first oxidized region of said first current blocking layer", the "surrounded by" limitation" fails to find support in the original application. Claim 69, lines 18-19, recite "to define a second nonoxidized region of said second current blocking layer surrounded by a second oxidized region of said second current blocking layer", the "surrounded by" limitation" fails to find support in the original application. Claim 74, lines 12-13, recite "to define a

first nonoxidized region of said first current blocking layer surrounded by a first oxidized region of said first current blocking layer", the "surrounded by" limitation" fails to find support in the original application. Claim 74, lines 18-19, recite "to define a second nonoxidized region of said second current blocking layer surrounded by a second oxidized region of said second current blocking layer", the "surrounded by" limitation" fails to find support in the original application.
